

PC PART MATCHER

Build your perfect PC. No guesswork.

Browse thousands of components, check compatibility in real time, and compare prices across top retailers — all in one place.

Browse Parts →

Smart Filtering

Filter by socket, form factor, storage interface and more

Retailer Links

Compare prices on Amazon, Newegg, Scan and more

HOW IT WORKS

01

Browse & Filter

Search the parts database and narrow results by category, socket type, form factor, or storage interface.

02

Build Your List

Add components to your build. PC Part Matcher flags any compatibility issues between your selected parts.

03

Buy with Confidence

Click through to Amazon, Newegg or Scan to purchase — each link is pre-populated with the exact part name.
